

Dear Parents and Guardians,

Thank you for taking the time to support your student and school during the field trip for the My Water, My Watershed program. This three-part program consisting of a pre- and post- visit to the classroom and field trip is supported by the New Mexico Finance Authority – Water Trust Board in partnership with the Santa Fe Watershed Association, City of Santa Fe Sangre de Cristo Water Division, and the U.S. Forest Service.

To help assist with this program, we ask you to follow these guidelines:

- To support this outdoor experience, we ask you to turn off the ringer of your cell phone and refrain from using unless in an emergency situation. We have asked students to leave their electronics at home during this field trip to allow us to fully immerse ourselves in the outdoors.
- We will be spending the day in an area that is closed to the public and have received special permission to use this area today. Due to the strict security of this area, no early departures are allowed and please do not depart from the group.
- There is a lot to explore during the field trip, please help keep the students moving while hiking.
- There will be activities along our hike where we will be splitting students into groups. We ask for your leadership in guiding a group of students through these activities.
- If you see students engaging in any unsafe behavior, please bring this to the attention of the educator immediately.
- There is no smoking or littering allowed in this area.
- Please feel free to ask questions.

Once again, thank you for taking the time to join and help us today!
